

ALWAYS SEEK GUIDANCE WHEN NEEDED

Don't be afraid to ask for help. There are tons of answers to your questions and people who are willing to give you advice.

REVIEW WHAT WORKS AND DOESN'T WORK

If something works, stick with it, but always be willing to adapt if something changes. If something is obviously not working, get rid of it and try something different.

GET INTO A ROUTINE

You don't have to be the 'routine type' but following some sort of schedule or planning out the day can help things go smoothly.
